Self-Check 2.1-4: Team Concepts and Practices

Self-check · Module version 2 · Completed · Handed in 1 time

Self-check, attempt 1: 8 of 10 correct

1. What term describes a group of people with different skills and tasks who work together on a common project, service, or goal?
   Answer: Team — Correct

2. What is the term for the process of working collaboratively with a group of people in order to achieve a goal?
   Answer: Teamwork — Correct

3. What characteristic describes when a team performs in a way greater than the sum of its parts?
   Answer: Synergy — Correct

4. What is Step 2 in working well in a team that involves contributing toward deadlines?
   Answer: Respect and schedule — Not correct
   Correct answer: respect the schedule / respecting the schedule

5. What is Step 7 in working well in a team that emphasizes avoiding gossip and negative remarks?
   Answer: Step 7 maintain positivity — Correct (accepted by AI check)
   Correct answer: maintain positivity / maintaining positivity

6. What team leader responsibility involves offering feedback, demonstrating desired skills, and working alongside the team?
   Answer: Coach team members — Correct

7. What trait allows a team leader to trust team members with tasks and assign roles based on individual strengths?
   Answer: Ability to delegate — Correct

8. What quality of successful teams involves members feeling a sense of belonging and commitment while carrying their fair share?
   Answer: Everyone contributes — Correct

9. What type of organizational structure divides the organization into smaller groups based on specialized functional areas?
   Answer: functional organization — Correct

10. What type of teams span traditional departmental lines to overcome communication limitations in functional organizations?
    Answer: Recent trend — Not correct
    Correct answer: cross-functional teams / cross functional teams

Self-Check 8.1-2: Waste Minimization Principles and Practices

Self-check · Module version 2 · Completed · Handed in 1 time

Self-check, attempt 1: 10 of 10 correct

1. Waste minimization is the reduction in the quantity of hazardous wastes achieved through a conscientious application of innovative or alternative procedures.
   Answer: True — Correct

2. Waste minimization often results in increased costs due to the need for specialized disposal services.
   Answer: False — Correct

3. Simple adjustments such as minor process changes in lab experiments may be sufficient to achieve waste minimization results.
   Answer: True — Correct

4. The most effective waste minimization method is recycling at the end of the product lifecycle.
   Answer: False — Correct

5. Renovating a house is far better than demolishing it because most demolition waste ends up in landfills.
   Answer: True — Correct

6. The three R's of waste minimization are Reduce, Recycle, and Remove.
   Answer: False — Correct

7. Waste minimization can result in improved product quality through new technological practices.
   Answer: True — Correct

8. Companies committed to waste reduction experience a worse public image due to increased operational costs.
   Answer: False — Correct

9. Keeping wastes segregated by compatibility helps avoid cross-contamination.
   Answer: True — Correct

10. Zero waste is a systems approach designed to manage waste more efficiently after it is created.
    Answer: False — Correct

Self-Check 8.1-1: Environmental Literacy and Education

Self-check · Module version 2 · Completed · Handed in 1 time

Self-check, attempt 1: 9 of 10 correct

1. What is environmental literacy?
   Answer: The knowledge, skills and ability to cope with the environment and promote environmental sustainability — Correct

2. According to the content, people born after 2010 will face how many times more climate-induced natural disasters than those born in 1960, if warming stays below 1.5°C?
   Answer: 2 times more — Not correct
   Correct answer: 4 times more

3. What type of learning does environmental education provide outside the classroom?
   Answer: Experiential learning — Correct

4. Which health issues does environmental education help address by getting students outside and active?
   Answer: Obesity, attention deficit disorders, and depression — Correct

5. Environmental education encourages students to investigate varying sides of issues to promote what?
   Answer: Tolerance of different points of view and cultures — Correct

6. What does environmental education combat by exposing students to nature?
   Answer: Nature deficit disorder — Correct

7. Environmental literacy requires the ability to understand which types of systems?
   Answer: Political, social and economic systems — Correct

8. How does environmental education affect student achievement?
   Answer: It sparks creativity and raises achievement in core academic areas — Correct

9. What does environmental education promote in terms of student behavior?
   Answer: Active learning, citizenship, and student leadership — Correct

10. Who do students reach out to when environmental education promotes community involvement?
    Answer: Local experts, donors, and volunteers — Correct

This sheet is a record of the work done on one activity. It is not a competency decision: competence in a unit is decided on assessed evidence.

Task sheet 7.1-1: Conduct a Workplace Hazard Identification and Risk Assessment

Task sheet · Module version 2 · Completed · Handed in 1 time

Trainee's note

No note was added.

Trainer's review: Confirmed

Performance criteria checklist

- Yes — Did you correctly identify at least five different workplace hazards?
- Yes — Did you accurately classify each hazard by its correct type (physical, biological, chemical, ergonomic, or psychological)?
- Yes — Did you assess the risk level for each hazard by considering both likelihood and consequences?
- Yes — Did you prioritize the hazards from highest to lowest risk?
- Yes — Did you recommend control measures following the Hierarchy of Controls (elimination, substitution, engineering, administrative, PPE)?
- Yes — Did you wear appropriate personal protective equipment during the inspection?
- Yes — Did you complete all sections of the risk assessment form accurately and legibly?
- Yes — Did you demonstrate systematic observation by covering all areas of the designated workplace?

Self-Check 7.1-6: Benefits and Action Items in OHS

Self-check · Module version 2 · Completed · Handed in 1 time

Self-check, attempt 1: 2 of 2 correct

1. Enumerate the five types of workplace hazards.
   Answer: Physical hazards; Biological hazards; Chemical hazards; Ergonomical hazards; Psychological hazards — Correct (accepted by AI check)
   Correct answer: Physical; Biological; Chemical; Ergonomic; Psychological

2. Enumerate the five levels of the Hierarchy of Controls from most effective to least effective.
   Answer: Elimination; Substitution; Engineering controls; Administrative controls; Personal Protective Equipment (PPE) — Correct (accepted by AI check)
   Correct answer: Elimination; Substitution; Engineering Controls; Administrative Controls; PPE

Self-Check 7.1-5: Identifying Safety Concepts and Responsibilities

Self-check · Module version 2 · Completed · Handed in 2 times

Self-check, attempt 2: 10 of 10 correct

1. What is the term for an object, material, substance, condition, process, or behavior that can cause harm?
   Answer: hazard — Correct

2. What acronym refers to the organization or department responsible for reviewing legislation, developing safety programs, and providing guidance in identifying hazards?
   Answer: EH&S — Correct

3. What type of control involves changing the way people work through training, policies, or design changes?
   Answer: administrative controls — Correct

4. What should be provided to protect workers from inhaling toxic gases?
   Answer: Respirators — Correct

5. What posture-related practice helps prevent injury by using leg muscles instead of back muscles when lifting?
   Answer: Proper Lifting technique — Correct

6. What program monitors the health of staff and students exposed to hazardous materials?
   Answer: Medical surveillance — Correct

7. What type of control involves isolating people from hazards by replacing equipment or changing the work environment?
   Answer: Engineering Controls — Correct

8. What should every department have that includes evacuation procedures, posted maps, and training for emergencies?
   Answer: Emergency Response & Preparedness — Correct (accepted by AI check)
   Correct answer: emergency response plan / emergency plan

9. What formula represents risk in terms of likelihood and consequences?
   Answer: Risk=likelihood of the event x potential consequences/damage — Correct (accepted by AI check)
   Correct answer: likelihood of the event times potential consequences / risk equals likelihood times consequences

10. What authority allows the shutdown of any activity that constitutes a clear and imminent danger?
    Answer: Shutdown of dangerous activities — Correct

This sheet is a record of the work done on one activity. It is not a competency decision: competence in a unit is decided on assessed evidence.

Self-Check 7.1-4: Safety Equipment and Workplace Procedures

Self-check · Module version 2 · Completed · Handed in 1 time

Self-check, attempt 1: 8 of 10 correct

1. The ___ is the likelihood or probability that a hazard will cause harm or adverse health effects if exposed.
   Answer: Risk — Correct
2. Safety Data Sheets are commonly abbreviated as ___ or MSDS.
   Answer: SDS — Correct
3. In the Hierarchy of Controls, ___ is the most effective method of hazard control.
   Answer: Elimination — Correct
4. Workers should use mechanical assistance such as carts, dollies, or ___ when lifting heavy objects.
   Answer: Trolleys — Correct (accepted by AI check)
   Correct answer: pallet jacks
5. ___ is the least effective and last line of defense in the Hierarchy of Controls.
   Answer: Personal protective equipment — Correct
6. You should never remove or tamper with ___ on machinery.
   Answer: Safety guards — Correct
7. Employers must follow ___ action items to effectively prevent and control workplace hazards.
   Answer: Corrective — Not correct
   Correct answer: 6 / six
8. Work-related stress, fatigue, harassment, and violence are examples of ___ hazards.
   Answer: Psychological — Correct
9. Always know where ___ are located and keep the path to them clear at all times.
   Answer: Emergency Exit — Correct (accepted by AI check)
   Correct answer: emergency exits / exits
10. When implementing hazard controls with limited resources, use the ___ basis.
    Answer: Risk- Based — Not correct
    Correct answer: worst-first

Self-Check 7.1-3: Matching Hazard Types and Control Methods

Self-check · Module version 2 · Completed · Handed in 1 time

Self-check, attempt 1: 2 of 2 correct

1. Match the type of workplace hazard in Column A with its description in Column B.
   Answer: Physical = Environmental factors like exposed wiring, wet floors, and excessive noise; Biological = Mold, fungi, bacteria, viruses that can cause disease or infections; Chemical = Gases, vapors, liquids, solids causing skin irritation or respiratory problems; Ergonomic = Bad posture and repetitive motions leading to sprains and carpal tunnel; Psychological = Work-related stress, fatigue, harassment, and violence — Correct

2. Match the Hierarchy of Controls level in Column A with its example in Column B.
   Answer: Elimination = Remove chemicals that cause severe skin irritation; Substitution = Replace solvent-based paint with water-based paint; Engineering Controls = Use remote controls to operate machines; Administrative Controls = Develop guidelines on how to use machines safely; PPE = Provide respirators to protect from inhaling toxic gases — Correct

This sheet is a record of the work done on one activity. It is not a competency decision: competence in a unit is decided on assessed evidence.

Self-Check 7.1-2: Workplace Safety Practices and Hazard Control

Self-check · Module version 2 · Completed · Handed in 2 times

Self-check, attempt 2: 9 of 10 correct

1. Safety Data Sheets (SDS/MSDS) should be kept accessible for all chemical products in the workplace.
   Answer: True — Correct
2. It is acceptable to use machinery you are not trained on if you are supervised by someone experienced.
   Answer: False — Correct
3. When lifting heavy objects, you should strain your legs and keep your back straight.
   Answer: False — Not correct
   Correct answer: True
4. Engineering controls are less effective than administrative controls in the Hierarchy of Controls.
   Answer: False — Correct
5. Taking regular breaks is especially important for tasks requiring repetitive movements over long periods.
   Answer: True — Correct
6. You should turn off equipment after cleaning, adjusting, or un-jamming it.
   Answer: False — Correct
7. A hazard can be an object, material, substance, condition, process, or behavior.
   Answer: True — Correct
8. Biological hazards include gases, vapors, liquids, and solids that cause skin irritation.
   Answer: False — Correct
9. Adherence to good health and safety practices is the responsibility of all faculty, staff, and students.
   Answer: True — Correct
10. Safety training should only occur when a new employee is hired.
    Answer: False — Correct

Tash sheet 6.1-1: Develop a Confidentiality Protocol with Reporting Requirements

Task sheet · Module version 3 · Completed · Handed in 1 time

Trainee's note

No note was added.

Trainer's review: Confirmed

Performance criteria checklist

- Yes — Did you identify and document all four phases of confidentiality management in the protocol?
- Yes — Did you include both legal mechanisms (confidentiality clauses, NDAs, policies) and non-legal mechanisms (culture, training, digital management)?
- Yes — Did you specify clear reporting requirements with appropriate report design elements (title, header, footer, filter criteria)?
- Yes — Did you define access control procedures based on need-to-know principles?
- Yes — Did you establish monitoring processes with specific feedback mechanisms?
- Yes — Did you create protocols that address pre-employment, during employment, termination, and post-employment phases?
- Yes — Did you specify consequences for confidentiality breaches that align with legal and organizational standards?
- Yes — Did you design the protocol document with clarity and professional formatting appropriate for the intended audience?
- Yes — Did you include provisions for routine training and regular review of the confidentiality protocol?
- Yes — Did you ensure the protocol complies with relevant legal requirements such as the Corporations Act?

Self-Check 6.1-5: Policies and Confidentiality Management

Self-check · Module version 3 · Completed · Handed in 1 time

Self-check, attempt 1: 8 of 10 correct

1. What type of document is included in employment contracts to set the legal expectation that breaches can result in legal action?
   Answer: Confidentiality Clauses — Correct

2. What are the binding documents that restrict persons from disclosing information shared with them, especially in commercial discussions?
   Answer: Non-Disclosure Agreements — Correct

3. What phase of confidentiality management involves password-protecting computers and granting access on a need-to-know basis?
   Answer: During the Employment — Correct (accepted by AI check)
   Correct answer: During the Employment Tenure / During Employment / Employment Tenure

4. What is the best protection for confidential information according to the content?
   Answer: Non-Disclosure Agreement (NDA) — Not correct
   Correct answer: workplace culture / employees who want to protect information / culture

5. What type of policy evaluation examines whether the policy accomplished its intended purpose?
   Answer: Formative Evaluation — Correct

6. What are the mandatory rules that must be followed exactly and ensure compliance across the organization?
   Answer: Protocol — Correct

7. What type of policies are based on legal requirements rather than company-specific culture?
   Answer: Legal Policies — Not correct
   Correct answer: compliance-driven policies / compliance policies / compliance-driven

8. What process involves discussing core issues with stakeholders, setting goals, gathering evidence, and modifying based on results?
   Answer: Policy Design Process — Correct

9. What is the six-step process that includes data requirement gathering, collection, cleaning, analysis, interpretation, and visualization?
   Answer: Data Analysis — Correct (accepted by AI check)
   Correct answer: data analysis process / the data analysis process

10. What provides broad guiding principles for behavior and integrity, ensuring sound judgment and ethical decision-making?
    Answer: Code of Ethics — Correct

This sheet is a record of the work done on one activity. It is not a competency decision: competence in a unit is decided on assessed evidence.

Self-Check 6.1-4: Accuracy and Quality Improvement

Self-check · Module version 3 · Completed · Handed in 1 time

Self-check, attempt 1: 10 of 10 correct

1. Business reputation is built on consistently providing reliable information, quality products, and trustworthy ___.
   Answer: Service — Correct

2. Objectives must be Specific, Measurable, Achievable, Relevant, and ___ so that performance can be measured against clear standards.
   Answer: Timely — Correct

3. An extra set of eyes through peer review mechanisms or supervisor checks dramatically improves ___.
   Answer: Accuracy — Correct

4. New employees often receive informal guidance that passes on poor practices, making formal instruction with ___ essential.
   Answer: Best Practices — Correct

5. Under pressure, employees rush and skip ___ requirements, leading to inaccuracies.
   Answer: Double-Checking — Correct

6. Front-line staff should be included in ___ because they perform the task daily and know where problems lie.
   Answer: Brainstorming — Correct

7. Automation standardizes outputs and eliminates the ___ that comes from manual, repetitive human tasks.
   Answer: Variability — Correct

8. Data analysis is the process of cleaning, changing, and processing raw data to extract actionable, ___ information.
   Answer: Relevant — Correct

9. Before data analysis can begin, ___ must be performed to remove white spaces, duplicate records, and basic errors.
   Answer: Data Cleaning — Correct

10. Data ___ graphically presents information using charts, graphs, maps, or dashboards for easy understanding.
    Answer: Visualization — Correct

This sheet is a record of the work done on one activity. It is not a competency decision: competence in a unit is decided on assessed evidence.

Self-Check 6.1-3: Data Analysis and Reporting

Self-check · Module version 3 · Completed · Handed in 1 time

Self-check, attempt 1: 2 of 2 correct

1. Match the data analysis type in Column A with its purpose in Column B.
   Answer: Diagnostic Analysis = Answers 'Why did this happen?' using statistical insights; Predictive Analysis = Answers 'What is most likely to happen?' using patterns from older data; Prescriptive Analysis = Combines insights from multiple analysis types to solve complex issues; Statistical Analysis = Answers 'What happened?' through data collection, modeling, and interpretation; Text Analysis = Uses data mining tools to discover patterns in large datasets — Correct

2. Match the report design element in Column A with its description in Column B.
   Answer: Report Title = Gives a pithy, accurate picture of the report's purpose and goal; Report Header = Includes primary metadata such as timestamp and user who generated it; Report Footer = Includes secondary metadata such as version number and page count; Filter Criteria = Shows what filters are applied to avoid misinterpretation; Formatting Rules = Uses bold, italic, or color to highlight critical data; Unique Identifiers = Static IDs that ensure data integrity for background calculations — Correct

Self-Check 6.1-2: Confidentiality and Workplace Ethics

Self-check · Module version 3 · Completed · Handed in 2 times

Self-check, attempt 2: 9 of 10 correct

1. Confidentiality obligations end when an employee's employment is terminated.
   Answer: False — Correct
2. Access to confidential information should be granted on a need-to-know basis only.
   Answer: True — Correct
3. Non-Disclosure Agreements are binding documents that restrict persons from disclosing shared information.
   Answer: True — Correct
4. Building a workplace culture of confidentiality is a legal mechanism for protecting information.
   Answer: False — Correct
5. All company devices should be retrieved from employees on their last day of employment.
   Answer: True — Correct
6. Procedures must be followed exactly as written and employees cannot deviate from them.
   Answer: False — Correct
7. SMART objectives must be Specific, Measurable, Achievable, Relevant, and Timely.
   Answer: True — Correct
8. Including checks and balances in work processes dramatically improves accuracy.
   Answer: True — Correct
9. Automation of repetitive tasks increases variability and human error in outputs.
   Answer: False — Correct
10. Policies that were relevant five years ago may no longer apply today.
    Answer: False — Not correct
    Correct answer: True

Self-Check 6.1-1: Protocols, Procedures, and Workplace Policies

Self-check · Module version 3 · Completed · Handed in 1 time

Self-check, attempt 1: 10 of 10 correct

1. What is the main difference between a protocol and a procedure?
   Answer: Protocols must be followed exactly, procedures allow flexibility — Correct
2. Which is an example of a protocol?
   Answer: Restaurant server greeting guests, offering menu, upselling, and presenting check — Correct
3. What is the first step in creating effective protocols and procedures?
   Answer: Write down the exact desired outcome — Correct
4. How soon after implementation should protocols and procedures be reviewed?
   Answer: After 30+ days — Correct
5. Which of the following is NOT listed as one of the 10 key workplace policies?
   Answer: Vacation and Leave Policy — Correct
6. What type of data analysis answers the question 'Why did this happen?'
   Answer: Diagnostic Analysis — Correct
7. Which data analysis method uses words, symbols, pictures, and observations rather than statistics?
   Answer: Qualitative Data Analysis — Correct
8. What must be done to data before analysis can begin?
   Answer: Data Cleaning — Correct
9. A Code of Ethics typically covers which type of principles?
   Answer: Broad guiding principles for behavior and integrity — Correct
10. Which audience typically prefers visual charts and graphs in reports?
    Answer: Executives and marketers — Correct

Task sheet · Module version 4 · Completed · Handed in 1 time

Trainee's note

No note was added.

Trainer's review: Confirmed

Performance criteria checklist

- Yes — Did you identify a specific organizational problem or opportunity suitable for innovation?
- Yes — Did you conduct research using multiple quality sources and organize your findings effectively?
- Yes — Did you address at least three common innovation challenges in your proposal?
- Yes — Did you correctly classify your proposed change as adaptive or transformational and match your management approach accordingly?
- Yes — Did you analyze both benefits and risks of the proposed innovation with reference to the content?
- Yes — Did you include a strategy for gaining employee buy-in and managing change?
- Yes — Did you present your proposal clearly using appropriate communication skills and presentation tools?
- Yes — Did you demonstrate understanding of how research skills, the 7 Habits, and innovation principles apply to your proposal?
- Yes — Did you respond appropriately to questions and feedback during your presentation?
- Yes — Did you demonstrate methodical planning and attention to detail throughout the task?
